

PSPA

PACIFIC SEAFOOD
PROCESSORS ASSOCIATION

PSPA is comprised of 11 seafood processing companies that purchase fish from fishermen and provide markets in remote locations around Alaska. These companies operate 47 facilities in 22 coastal communities across Alaska and 3 floating processors. PSPA's members have invested in Alaska, supported Alaska communities, and hired Alaskans for over 100 years. Our members depend on state and federal fisheries and all fishing gear types.

as of June 2025
